Subject: Euthanasia Bill

We wish to express our objection to our State Governments' intending legislation of the euthanasia Bill.

We support the many health professionals who say we should do all we can to protect Queenslanders rather than assist them in dying. Every Queenslander has a right to high quality palliative care, this then would negate the need for assisted suicide.

We all throw our arms up in the air when we hear the number of suicides that are occurring in our society today, but we conveniently don't think of the connection that exists between euthanasia and suicide.

If this Bill gets passed, it will be seen by society in general that life is not sacred but expendable.

We are deeply perturbed by this Bill and would like to hear your views on this subject.

Yours truly

Vito & Lynette Cuzzubbo,
