Submitter Comments:

It is a human right to choose a Peaceful Death on their own terms, my concern is if I were diagnosed with dementia I would like the choice to terminate my life early on my own terms! Another concern is if I was bed ridden in an aged care facility and my day consisted of lying in bed in nappies with no quality of life I would like to choose an option to terminate my life! Please consider those who do not have a terminal illness but are at the end of their life and are wanting to go peacefully! Keeping someone alive against their wishes is like a slow form of torture. My life My choice. Please give me the right to a peaceful death! I should not have to spend my twilight years panicking about the end of my life.
