Submission to the Health Committee

Re: Submission to the Health Committee

Dear Health Committee Members,

I write to oppose this bill. It does nothing to value life but seek to expedite the demise. Greater provision needs to be made for effective palliative care. We were told when the abortion. I'll was passed, it would not lead to an increase. Yesterday the government!s own figures highlight the sad increase, including the number of babies born alive but not give care or compassion. The same could likely happen to the elderly....deaths by convenience and then extend to those with disability and those even younger facing challenges in life. Evidence is available of The Netherlands extending euthanasia to disabled young people. Put an end to the slippery slope [REDACTED] Don't stretch it to now 8nclude the elderly and difficult to manage. Show respect to life at every one of it's stage.

Sincerely,

Tim Young
