Re: Submission to the Health Committee

Dear Health Committee Members,

I am very concerned that the assisted suicide bill is being considered for some of the following reasons: If a misdiagnosis of a possible terminal illness was made, and a hastily made decision on euthanasia was entered into, it would be clearly murder. The medical sector are there to do no harm, not cause death. Human life is too valuable to be 'put down' as we might a badly injured animal.' I do not believe anyone has the right to take another life. I believe the medical profession is against euthanasia. I have worked as a nursing assistant and I would not like to have the responsibility of working under this type of legislation, and would refuse to take part in any such laws.

Sincerely,  
Lyn Dumke
