Re: Submission to the Health Committee

Dear Health Committee Members,

Dear Sirs,

Please value the life of those who suffer disease and extreme age. No human has the right to veto life for another. No human has the right to outvote any individual on the matter of life / death, irrespective of the circumstances.

In any civilization and in any language , Assisted suicide is just short of murder, the ultimate abuse. You are duty bound to think hard of the moral responsibility you as advisors to the peoples government before recommending the passing of this Bill to legalize life termination.

Sincerely,

James Warren
