**Submitter Comments:**

I would like this bill to be axed.

Voluntary suicide is an open Pandora Box despite what the current regulations are stipulated in the proposed Bill.

When a person has a mental disorder and life is impossible in his eyes is one where in the future it could be assessed as an life giving choice on the basis of there life is where life is no longer worth living.

There are many many people who feel life is not worth living due to their circumstances.

This Bill will open the gate in the future where suicide is the best way for people to end their misery.

I sincerely ask you to vote against this Bill
