

Submission into the Voluntary Assisted Dying Bill 2021

Submission No.: 432
Submitted by: Denis Edwards
Publication: Making the submission and your name public
Position: I/We support the Voluntary Assisted Dying Bill
Comments in relation to: Other
Attachments: No attachment

Submitter Comments:

I have recently been diagnosed as having Stage 3 Lung Cancer.
I have undergone a right lung lobectomy and a program of chemotherapy.
I have been advised that the 5-year survival rate for people with stage 3 lung cancer is around 30%.
I believe that people in my position should, following compliance with the eligibility criteria, be given the right to determine the timing and circumstances of their own death and to do so with dignity.
