Submitter Comments:

Thankyou I take this opportunity to express my support for this Bill.

My father died a slow extremely painful death from cancer - if he had the choice he would have not suffered for months bedridden out of control in constant pain. The choice must be given to those that follow.

Eligibility should be afforded to those who have been given a finite time to live.

Eligibility should be afforded those whose quality of life is deteriorating or has deteriorated to a state of incapacity with pain and limited life expectancy. Rather than list certain diseases - a fair process should include any disease and rather approval should be based on effects and status of the disease and of Drs opinion of the patients condition and end of life prospects.

Eligibility
