Re: Submission to the Health Committee

Dear Health Committee Members,

Please reconsider passing the voluntary assisted dying bill. This bill is wrong on every level. In cases where the elderly patient has dementia it would be very easy for the family to unburden themselves and gain an early inheritance and for many other reasons. Science and not emotion tells us that it is killing. How did a civilized society come to such a time as this where we legalise and encourage killing. Please invest in excellent palliative care and mental health care and not in assisted killing.

Sincerely,
NANCY STILIANOS
