Re: Submission to the Health Committee

Dear Health Committee Members,

I have grave concerns about the assisted suicide bill being debated in parliament right now. Have we lost all decency? This bill leaves everyone at risk of wrongful death! Two doctors can give approval! They don't need any special qualifications. This opens the door for so much wrong! Wrong diagnosis, wrong prognosis, coercion, elder abuse, plain murder! And to think this is the government's alternative to proper palliative care!! This bill tells every young person that suicide is considered a useful alternative and as has been seen in every state and country where assisted suicide is legalised, suicide rates increase terribly. Please please, for the sake of ourselves, our children and future generations do not allow this law to pass!

Sincerely,  
Jeanette Gray
