Subject: Submission to the Health Committee

Re: Submission to the Health Committee

Dear Health Committee Members,

To Whom It May Concern

I am compelled to send this email concerning the assisted suicide Bill because with the passing of this Bill there is a strong likelihood that it could do serious and ongoing harm to members of the community, especially when there is potential for abuse, whether to the elderly or those mentally incapacitated or suffering from ongoing trauma, such as post traumatic stress disorder or other mental illnesses or grief and loss due to a traumatic death, which certain members of the public would definitely experience, especially if opposed to assisted suicide.

I believe the overall well-being of the community at large needs to be considered for if it is not, it will cost much more than anticipated by the passing of this Bill to people personally, not to mention the cost to the government in supporting those who have been negatively impacted by such a Bill.

Sincerely,
Cassandra Ryttersgaard
