Subject: Submission to the Health Committee

Re: Submission to the Health Committee

Dear Health Committee Members,

Voluntary assisted dying Bill is against the principle of protecting and saving life. As doctors we are supposed to save life to the end. It is not Palliative care, where patient is given psychological and physical support until their natural death. Also doctors should have a choice to differ in any form of suicide. They should not be forced to refer patient to anybody who help the patient to end their life.

Sincerely,
Preshy Varghese
