Re: Submission to the Health Committee

Dear Health Committee Members,

[REDACTED]

I am writing you this appeal for this remind me of a scenario when a friend of mine were agonising in pain and almost or see herself no reason to live because she was told by the medical professional that the disease was degenerative and there was no cure. Because of the severity of pain it affect her mentality and lost hope. Without any other intervention. She was planning to go to Victoria as she found out a place where she can go for euthanasia. But God did a miracle healing on her and she was healed from that certain disease. You may say that you are not a religious person but We are all a precious being. If this happen to one of your love one? Would you also suggest or assist voluntary suicidal? We all have the right to live as we all born for a reason. Only God has the right to say when is our time in this world. If there is a will there is always a way.. This person could be one of your love one.

Sincerely,
Luthis Angeles
