Subject: Submission to the Health Committee

Re: Submission to the Health Committee

Dear Health Committee Members,

Please do not proceed with the legalising of "voluntary assisted dying." It is contrary to the Hippocratic Oath that all Australian doctors adhere to. Many people with a "12 months prognosis" live for a further 5 to 10 years. Many people with mental health issues such as depression do get over it - but not if they are euthanised. Please re-direct your thinking away from VAD, towards improved palliative care. Thank you.

Sincerely,
Edward Walker
