Subject: Submission to the Health Committee

Re: Submission to the Health Committee

Dear Health Committee Members,

I am deeply saddened and totally opposed to the assisted suicide bill. Our state's spending on palliative care is abysmal, and it is so wrong to allow 2 junior doctors with no further specialist training to give approval. Doctors who object to this legislation morally, should not be forced to play any part in even referring a patient in their care. Nor should residential homes operated by churches with a moral objection be forced into allowing it on their premises. I have many other lengthy objections to this legislation, but these are my main ones.

Sincerely,
Gwenyth Gutke
