Subject: Submission to the Health Committee

Re: Submission to the Health Committee

Dear Health Committee Members,

This Bill will affect people with less than normal cognitive function, people who are sad or depressed or lonely, people with anxiety, people who are low socioeconomic, people who don't think they belong, people who don't feel accepted. We cannot let a Bill pass which will allow and encourage people to end their lives for reasons which might change so dramatically so quickly. This is dangerous. We need to protect our most vulnerable and the ones who might have times of not feeling together. We have all been there but we have pulled through. Others might not get the chance to pull through.

Sincerely,
Deb Acason.
