Re: Submission to the Health Committee

Dear Health Committee Members,

I was pondering on how to word this email, and the only way I can start it is to simply beg you ALL to put an end to this macarbe actions of the wild out of control murdering of the innocent.

Urge you to do a study on Canada and see what is starting to happen over there. You say on the surface it will be good for all concerned HOWEVER killing of the innocent, the suffering [for starters] is going to have such an horrific kickback,,, so severe that you will say "we never saw this coming". Well, when humans start playing god for the good of the one world government you can only expect such a powerful backlash like has never been experienced before.

Not one of you have the power or right to kill "just because."

Yes, I also weep for those REALLY suffering [unborn babies do not come under this category] and wish I could put an end to suffering -- however I cannot and neither can you.

CULLING OF THE HUMAN RACE IS A VERY DANGEROUS GAME TO PLAY.

Please stop and consider what you are playing with.

Regards

Sincerely,
Patricia Crowther
