Re: Submission to the Health Committee

Dear Health Committee Members,

We humbly ask that you not support the euthanasia bill. Human life is too precious to kill people. What should be done is to improve even more than planned the Palliative Care financial assistance, so that end of life will improve. We have followed this from overseas and there are just too many people who are killed against their will. One Doctor in the Netherlands said, "But we needed the bed !" That should NEVER be a reason to kill people. That lady had not given her permission, and also didn't want to go to hospital because she heard such a thing could happen. Her Doctor convinced her it would not happen but it did on his day off. There are many many such stories from there. We don't want the same thing happening in Queensland.

Sincerely,
Eddie and Evelyn FREE
