Re: Submission to the Health Committee

Dear Health Committee Members,

Governments have abolished the death penalty no matter what crime has been committed because it is wrong to KILL, whether it be another person or yourself. The sugar-coated term 'voluntary assisted suicide' or euthanasia is KILLING yourself with assistance. Doctors have taken the hippocratic oath to save & protect life. If this Bill is passed it will have a ripple effect & it is giving people the tick of approval to take life (people with disabilities will be next). Each person's life is to be valued & treasured. More palliative care would allow people to die with dignity. KILLING is not the answer. Please please do not open that door to destruction!!

Sincerely,
Isabela De Souza
