Re: Submission to the Health Committee

Dear Health Committee Members,

Dear Members of the Qld Government Health Committee

I am astounded at the purpose and confidence demonstrated by those who wish to call an end to lives of citizens of Queensland for the most incidental reasons. It speaks of an egocentric government who have a worthless Mission Statement, and unfortunately do not think it is worthwhile expanding their efforts to provide adequate Palliative Care for the dying, and in all cases are happy to eliminate the dying process. I understand we live in a democratic society, and for those of us who are prepared to spend the time and effort on caring for the sick, dying, and marginalised, this is a cowardly slap in the face. Health Committee members should give credence to the Catholics and other Christian members of our society who are prepared to work with people who articulate a desire for assisted dying, which is in fact a cry for help, so that they can leave this world in dignity and grace. Something that everyone is entitled to and should be directed towards

Sincerely,
Mary Shelley
