Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

It is with great concern that I write this email.

1. The fact that the State government wants to rid its responsibility of so many people to ease their spending on our State Budget is deplorable.
2. To allow young doctors to sign off on a life without having trained in all aspects of aged care and palliative care is criminal and no less than allowing a murder to occur under the cover of a mercy killing.
3. Our older members of society need to receive all the medical and social care that they themselves gave to others during their lifetimes.
4. Our Defense Forces do not go to war to fight injustices in other nations to come home and be faced with the murder of a loved one.
5. To have already allowed medial assisted terminations on the unborn in Queensland is already a scar on our democracy and this new Bill adds to the injustices that are allowed in Society without giving a voice to the Associations who would become involved in this murderous practice.

The Members of Parliament should be given a free choice to vote as their conscience leads them and not be forced to vote as their ill-advised party would have them vote. Suicide and Murder are killing under any name it is disguised by.

A Member of Queensland & Australia and the Heritage we have been given. J. Kavanagh

Sincerely,
Jennifer Kavanagh
