Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

Your taking away any semblance of giving any noble quality structure for discussion , advice, to have little ability to have quality Specialist health advice is tantamount for approval for taking ones life, loads the chamber as nearly a fait accompli. The age of 18 will certainly cause many to choose a death sentence , peer pressure, loss of self esteem will be in the mix, all is needed is someone with the vested power so well explained in Mein Kampf.

Sincerely,
John A Gates
