Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

This bill affirms the ability for doctors to provide an avenue to death.

Killing another human is a horrendous action to do.

Many terminally ill patients can live many years after they are diagnosed.

Instead of passing this VAD bill, increases to palliative care should be undertaken.

Sincerely,
Benji Martin

Sincerely,
Benjamin Jack Martin
