Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

The Australian Medical Association is opposed to Euthanasia. Euthanasia is not healthcare and doctors are to save lives, not end them. It is unethical for health to be called suicide. Health promotes a healthy and safe life, not death as death is not health. Are doctors to be killers now? Please oppose this bill.

Sincerely,
Susan Strydom
