**Subject:** euthanasia Bill

Please please pass this Bill without delay. Many many people will be less anxious, even if they do not take advantage of it! Just to know there is a way to end awful pain and hopeless suffering.

It's just like having the car in the garage. You don't need to go anywhere then, but when it is away for service, you suddenly feel trapped without it!

I am almost eighty and have good health, but I dearly wish that a legal way to end my life is possible if I should need it! Can you see what I mean?

Thankyou for your consideration of this important matter Yours sincerely Diana Anderson
