Hi Commissioner

I wish for my views on assisted dying to be considered in preparation for the Bill to be passed. I believe that in life we are encouraged to be involved in our health outcomes. This equally applies when you are dying and should be the wishes of the patient rather than the family – and I do understand the emotional issues affecting the family at this time.

Please pass the Bill in its entirety so Queenslanders have the option of managing their own health including when they are dying.

Thank you

Julie Lumsdale
