Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

I do not support assisted suicide. When I was 15yo [REDACTED] I'm now 63yo, have 3 wonderful daughters, 3 grandchildren, a successful marriage, a successful business that employs people, contribute to our local community and have a couple of overseas missions.

7 years ago I got cancer and according to your Bill could have opted for assisted suicide. Instead I fought it holistically and have a clean bill of health today. The ripple affect of suicide, whether assisted or not, goes well beyond the person.

Sincerely,
Gary Willcox
