**Subject:** The Right To Die

Dear sir or madam,

My name is Frank Spindler. My wife died of a treble lung disorder in February this year. The sad part about her conditions was that there was nothing any one could do to releve her suffering of constant pain. She want to go but no one would let her. We were compelled by law to keep suffering day and night. So it truly was a blessing when she finally gave up the cost.

It is my wish that you along with all your colleges that you never ever have to suffer the way she did. I there ask that you support the proposal to change the law and allow pleople the God given freedom to choose the right to die.

Thank you for listening  
Yours Sincerely  
Frank Spindler.

PS if you would like to discuss this issue personally please call me [REDACTED]
