**Subject:** I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

Dear Health Committee Members,

I am writing with my concerns on the issue of voluntary assisted dying legislation. I believe this is intentionally killing someone, it is assisted suicide and it will lead to wrongful deaths.

Will you support or oppose the assisted suicide Bill, and how do you intend to vote?

Will you support an annual increase in funding to palliative care services of \$275 million per year?

How does introducing assisted suicide legislation fit with government targets to halve suicide rates by 2026?

How is assisted suicide compatible with the priority of protecting the elderly or vulnerable established under COVID 19?

Is it fair to force doctors with a conscientious objection to euthanasia to refer for assisted suicide or euthanasia?

Is it fair to deliver lethal assisted suicide substances to regional and remote areas which have no palliative care?

Did you know providing palliative care to all Queenslanders each year costs about the same as 3 kilometres of motorway upgrade?

Why will health and aged care providers opposed to assisted suicide and euthanasia be forced to allow it on their premises?

I am asking you to reject the Bill, and support any amendments that would make this Bill less dangerous.

Thank you for your time and for being willing to listen to my concerns, thank you in advance for answering my questions.

Sincerely,  
Karen Eldridge

Write your email here.

Sincerely,  
Karen Eldridge
