Subject: V.A.D. Bill

I am writing to express my support for Voluntary Assisted Dying.

I am an elderly lady living in [REDACTED] Qld. My wish is to be able to request help with assisted dying should the needs become necessary. I therefore support the VAD Bill as it is proposed right now.

It is essential that any doctor who is attending to me should I wish to terminate my life has the means to communicate with others by phone so that my wishes can be granted. I live alone in my own home about an hour or so away from [REDACTED]. My family understand and agree with my wishes.

Regards
