Please allow this bill to pass . I have Parkinsons and although i am fine now I know what the future . My father [REDACTED] was in a coma for several weeks until he died from his head wound. My mother had the rigidity form of t he disease which is Rd one I have. She only had it for 2 years before passing so thank God she still knew her family and still had most of her facilities. She only had the very early stages of dementia. I know i will fight this terrible disease as long as I can but when the fight has gone I would like to go on my terms

Thanks for allowing me to write this to you and i hope with all my heart that this bill gets passed. I forgot to say that my husband died in 2001 from prostate cancer and he fought to the end as I will do too but I feel that if I get too bad I will want to die with dignity

Rhonda Stevens
