Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

Our modern society has a rather dubious view on the sanctity of life. Abortion is now a viable alternative in Queensland and the next agenda item, is to allow medical suicide! What sort of progressive community allows Doctors to prescribe medications where a lethal injection kills the patient either via syringe or a drip?

Doctors with a conscientious objection to euthanasia or assisted suicide would be forced to refer patients for it and therefore be complicit in the outcome of a patient killed.

Queensland has become a dangerous state for the unborn and those who are terminally ill. I fiercely oppose such actions. Life is precious. Using misleading and deceptive language is lying.

To sum up , this bill is about coercion, lying and murder.

Sincerely,
Ann Kuiper
