**Subject:** I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

I would like to lodge my objection to the tabled bill. As a medical professional, I must strongly object to any bill which may compel a doctor to refer a patient for assisted suicide. I must further object to the lack of necessity for adequate mental health evaluation, and the lack of requirement for the involvement of a specialist able to prognosticate the patient's illness accurately, and the lack of palliative specialist involvement.

Sincerely,  
Michael Fletcher
