Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

First we legalize abortion (kill unborn children), then we legalize euthanasia (killing the elderly &/or those who are considered terminal - a weight on the governments budget), whats next? killing all those who are not considered a 'productive', & compliant, member of society ie disabled &/or handicapped persons. This is taking us down a very dangerous, & unethical, path

Sincerely,
Bill Perry
