Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

I beg you not to go ahead with this bill as it is so wrong to make any doctor to refer a patient to another because their conscience does not allow them to assist in another's suicide.

We live in a democracy so how can you force anyone to go against their right to choose life. There are so many flaws in this bill and it looks like it's a case of assisting people to commit suicide to save money instead of putting money towards palliative care.

Sincerely
Jan Finlay

Sincerely,
Jan Finlay
