Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

To the Queensland government.

I am deeply concerned by the extreme laws you are proposing to facilitate suicide and Euthanasia. The AMA, nursing bodies and religious organisations disagree with your proposed laws. You have no respect for their opinions.

Adequate Palliative care funding should be the first item on your agenda. Instead you refuse to provide the funding so all citizens in regional Queensland especially, as well as in the cities can choose to die with dignity and pain free.

How can it be morally and legally fair to insist that all organisations such as religious care homes and medical staff be complicit in your extreme bill. It's not fair. It's not reasonable. It is unacceptable. I am ashamed to be a Queenslanders when such vicious laws are being considered.

Margaret Batten

Sincerely,
Margaret Batten
