Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

I wish to express my serious concerns about the above Bill as it is nothing more than assisted suicide. In the State of Victoria this has led to an increase in non-assisted suicide rates and one can only accept that it will be the same position here if the Bill is passed. It is human beings that must diagnose the patient and it is only human that the wrong prognosis can be made but with fatal consequences. Please stop the passing of this Bill.

Sincerely,
Stephanus van Tonder
