Subject: VAD draft Bill

I and my husband John Neale wholeheartedly support the VAD draft Bill as it is.

We are both healthy Octogenarians living independently in our own home. Should the need arise we want to be able to legally access VAD either in hospital and especially in our own home.

Doctors must be able to use electronic means to communicate with each other and their patients regarding VAD.

Please pass the draft VAD Bill as it is.

It is our right to decide on our own life if we are terminally ill.

It is our right to VAD if we are in continual pain.

It is our right to put ourselves out of our misery, not only for us but for our family.

Please pass the draft VAD Bill.

Sincerely
