Subject: VAD bill support

To whom it may concern

I would like to reiterate my support for this bill as written, people from remote and regional areas should not be discriminated against when it comes to choice especially when we have technology to allow them fair access. Also allow people who live in their own homes (regardless of where that might be) to be visited in their own homes. The less disruption to people at this point in their lives will show compassion.

I watched my mum pass away from cancer and while she was incredibly lucky to have a “good” cancer death the terrible screams of other patients in palliative care showed that she was not the norm. DO NOT ALLOW ANYONE TO SUFFER UNNECESSARILY.
