Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

I'm writing today to oppose the Voluntary Assisted Dying Bill. There are no mental health checks in place and no specialised training required to refer patients for euthanasia. Stronger controls need to be put in place.

I also strongly believe that practitioners should be able to follow their personal conscience in this matter, not be forced to refer patients against their personal or religious beliefs.

If passing this bill to to allow choice for terminally ill Queenslanders, please give that same freedom (choice) to medical practitioners and institutions.

Sincerely,
Camden McKenzie
