Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

I have read the considerations for and I believe there are too many loopholes for unethical people to take advantage, and that this Act if passed would then become a legal killing machine. We are not Nazis. I believe that life is sacred, and that the Queensland Government should be spending time and money in sorting out how Palliative Care can be increased, especially to regional areas. Many years ago I attended a seminar on this topic given by a down to earth doctor who presented both sides; I came away feeling that assisted suicide is very wrong.

Sincerely,
Pamela Andrew
