Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

Health Committee

Please do not be so foolish as to recommend to pass this Bill. Throughout my working life I have counselled people who at one stage wanted to die but health or situations improved and their enjoyment in life was restored. More importantly God has given us a responsibility to support life, not encourage people whose physical or mental distress needs relief and comfort. Euthanasia and "assisted suicide" will incur God's judgement.

Yours sincerely,

Bruce Cruickshank M.Ed (Guidance & Counselling) BFET,BTh,Dip Th.

Sincerely,

Bruce Cruickshank
