Subject: I oppose the "Voluntary Assisted Dying" Bill

Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

Dear Sir/Madam,

I am very concerned that this bill will be abused and elderly people placed in grave danger if it goes through. Elderly people are vulnerable in the way that children are and often do not have full mental capacity to make choices about life and death. They can easily be coerced and manipulated by others and need full protection of the medical professionals who have sworn to do no harm to people.

Please carefully coincided the ramifications of such a decision for elderly people and for the health and medical professionals.

Sincerely,

Elizabeth Mason.

Sincerely,

Elizabeth Mason
