Submitter Comments:

I wish to support the bill as I strongly believe in a person's right to choose a dignified death over a lengthy/painful death at the end of a terminal illness/disease.

As long as there is fair assessment and review to determine that someone has the decision making capability and also that their condition is terminal/long term degenerative to a significant state, I feel that it is an individual's right to die with dignity in their own terms. We don't let animals suffer unnecessarily when they reach this point, so why do we not give humans the same rights.
