Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

Dear Health Committee members,

I oppose the legalisation of euthanasia for the following reasons.

1. Suicide should never be celebrated or promoted as a solution to human problems. With so many young people taking this course of action, it sets a very bad example.
2. If, as claimed, euthanasia is a basic human right, it belongs to every human being, and cannot logically be limited. Therefore, any limits placed in legislation will only be temporary, since they are not logically sustainable against challenge.
3. We all expect the law to protect us from lethal assault during the good years of our lives, the price we pay in return is to accept that this protection cannot be taken away simply by our changed circumstances. This proposed legislation must for these reasons be opposed.

Sincerely,

Peter and Mary Davidson

Sincerely,
Peter Davidson
