Re: I oppose the "Voluntary Assisted Dying" Bill

Dear Health Committee Members,

I find it so troubling and disconcerting that our elected or assigned health officials who support the concept of physical and mental health, and, I assume have agreed to or, for medical doctors, signed the Hippocratic oath to 'do no harm' would not be grief or conscience stricken to support Euthanasia (or abortion for that matter). While I do not agree with those the Greeks in the oath swore to, the principles laid out have guided medical doctors and staff for centuries. Won't you please reconsider your support of such a wicked practice. I completely understand the need for good and empathetic hospice care for those with devastating medical conditions, or, who are at the end of their natural life - but, often those in those conditions could be helped to life out their days pain free and those they love, or who love them would not miss out on those last years/days/hours of their lives.

Sincerely,
Kenneth Thomason
