Submitter Comments:

I do not own my own home, have insufficient retirement savings to survive adequately and comfortably renting even with the available support from the Federal Government. I dont see that likely to change.

I think that I would like to take advantage of VAD at a time of my choosing, which is quite a few years forward, when I feel that my quality of life will take a major downturn.

I o not wish to be forced into home grown means of dying when there are civilised ways available, or that could become available.

I should be in charge of the way I exist, or cease to, not any committee or Government dictating when I am allowed to die and how I am allowed to die.
