Submitter Comments:

I have been a long time supporter and advocate of the right to end our lives with dignity as a basic human right. I feel for far too long we have treated our pets with a great deal more care and concern with end of life suffering than our human beings which is disgraceful!! I have personally witnessed a number of people who had to choose nil by mouth as a long slow suffering death because of no other choice which is absolutely ridiculous in a western democracy. We should stop pandering and creating our laws to the few who might do the wrong thing and instead give us all the right to take our own lives when needed, or the choice taken by those we have given care instructions to.

I really hope that this bill will be passed in all Australian states as soon as possible!!
