Submitter Comments:

Anyone has the right to choose to die- vad. Anyone who has an illness, pain, suffering not just those who are going to die within the next 6 months, my mum died from breast cancer that spread to the bronchial tubes, it was an horrific way to wither away. My nana died from septicaemia due to ulcers on her feet another awful way to die. Once you decide - your quality of life is gone then thats the right time.

The right to decide while they are able to before their illness takes over esp if dementia related. also parents of severely disabled/ ill children and the treating doctors need to have this choice also.
