Submitter Comments:

I lost my wife Lydia Falkenhagen to Brain Cancer (Glioblastoma Multiform Type4,,, GBM).

It is 100% fatal with zero survival rate.

So after 37x years of marriage,,, the cancer took just 50x weks to take her life.

She submitted to Radiation and chemo therapy knowing that this would not save her life.

She taught in Qld High Schools for 40x years and wanted to say goodbye and die with dignity.

But instead she had to suffer a drawn out dieing process.

Please allow people to be treated with dignity and to die in peace with the full knowledge that the suffering is eliminated by allowing assisted dieing.
